3/20/2020

Ecuadorian Rainforest, LLC is classified as the following type of business:

- A food wholesaler.
- Standard Industrial Classification (SIC) code is 5159 - Farm-Product Raw Materials
- NJ Manufacturing Business Code 1315 - Health Food Products
- FDA registered food distribution facility

The company's food ingredients and raw materials go to manufacturers of essential products such as:

- Foods and beverages for human consumption
- Animal feed and supplements
- Domestic animal feed and supplements
- Dietary supplements and health products
- Sanitizing agents.

The FDA recognizes the "essential" nature of food and healthcare products; therefore, these companies are expected to continue to operate despite local and state "shelter-in-place" orders. Temporary closure would be contributing to a materials shortage for manufacturers of essential products.

The company has taken measures to ensure it is not contributing to the spread of COVID19. A complete COVID19 plan can be found on our website, www.intotherairainforest.com/covid-19. The company has enhanced our cleaning and sanitation policies, going above and beyond the FDA and CDC standards, ensuring a safe working environment and superior products.. Additionally, all non-essential employees have already been asked to work remotely. Only essential employees are on site to ensure that production and distribution of ingredients remains uninterrupted.
